

Follow-up ENTSO-E's actions

Ioannis Theologitis, ENTSO-E

**10th Grid Connection European Stakeholder
Committee Meeting**

11 June 2018, Brussels

GC ESC Actions and Status 1/2

Action	Answer	Status
As per the ToRs of the GC ESC, expert group(s) to address the technical topics identified can be created with the organizational support of ENTSO-E. ENTSO-E will provide updates on the creation of the EGs at the next meeting in June	To be presented under item 4 of the GC ESC agenda	closed
Question on max. voltage in 400kV networks: ENTSO-E should send a request to start the process for the standard regarding max voltage in 400kV networks to be amended on behalf of the ESC. ENTSO-E should inform the ESC when the request is submitted	IEC contact has been contacted and issue was explained. Formal submission through the relevant ENTSO-E WG	ongoing
ENTSO-E should collect feedback from the TSOs on the question whether TSOs would accept the same type of equipment they use in operating their systems to be owned by generators in order to see what the understanding is	To be presented under item 5 of the GC ESC agenda	closed
ENTSO-E should consider the questions raised by VGB, refine the list based on the type of issues, and propose either a process for finding a solution or a response, pending upon availability of expertise to answer the relevant questions.	To be presented under item 3 of the GC ESC agenda	closed

GC ESC Actions and Status 1/2

Action	Answer	Status
The question regarding the interpretation of RfG Article 6.4 and how it applies to cogeneration will be logged in the issue logger. Everyone is invited to contribute an answer on how to read and understand it	Answer is included in the material that answers to VGB questions (under item 3)	closed
ACER will inform NRAs of the examples provided regarding substantial modifications	To be presented under item 6 of the GC ESC agenda	closed (?)
Stakeholders should inform the EC if they notice some divergencies between the English version of the NCs and the translated version into national languages. The EC will follow-up on any such notifications received	Feedback from EC or stakeholders ?	ongoing (?)
So as to raise the awareness, the ESC members should inform the MSs and NRAs of the uncertainties of application for the mass products PGMs after 17 May 2018 and of possible solutions. The ESC is to follow the unfolding of this issue	Feedback from Stakeholders/EC?	ongoing (?)

Other Actions

Action	Answer
Regarding the question on measurement precision of the frequency and the definition of insensitivity in SOGL and RfG, ENTSO-E will provide additional clarifications on the outstanding issues upon further consultation with the system operation experts	To be presented under item 3 of the joint GC ESC and SO ESC agenda (12 June)
Regarding the question on whether SO GL provisions can be imposed on batteries, ENTSO-E will provide an answer after further coordination with system operation experts	Topic likely to be addressed within an EG – no further considerations for now
ESCs will be updated regarding any updates of the consultation overview	To be presented under item 5 of the joint GC ESC and SO ESC agenda
