

Follow-up actions from joint GC- SO ESC session

Ioannis Theologitis, ENTSO-E

Joint GC – SO session Stakeholder Committee Meeting

13 December 2018, Brussels

Joint GC - SO ESC Actions

Action	Answer	Status
ENTSO-E will confirm at the next meeting whether it is possible to provide information on the technical requirements for RR and FRR through the Active Library.	ENTSO-E will collect links to LFC block operational agreements and will make the links available on ENTSO-E website	closed
ENTSO-E will take the suggestion to collect historical data of inertia where possible already from 2018 and will report in the December ESC the feasibility.	Analysis ongoing	ongoing
ENTSO-E will look into gathering the information regarding countermeasures considered by TSOs in the system defence plans.	System defence plans cannot be made publicly available due to security reasons	closed
All stakeholders who wish to provide preliminary feedback for the update of the Consultation policy document are welcome to contact ENTSO-E to arrange a discussion.	ENTSO-E has interviewed a number of stakeholders in the course of the past few months, we welcome more inputs in December and January	ongoing
