Jan 2019

- Full draft of updated consultation policy document

Q1 & Q2 2019  
(subject to adoption of  
CEP)

- Launch of formal process, stakeholder consultation and adoption;
- Submission to ACER & EC

# Initial thinking: new elements of the ENTSO-E consultation policy

**Product development approach fit for each deliverable**

Differentiated requirements depending on complexity, scope, legal deadlines, urgency of a deliverable

Duration of consultations adaptable to type of deliverable

**Visibility, clarity, and transparency**

An 'inception document' accompanying each consultation

ENTSO-E website, consultation hub, newsletters, ENTSO-E Annual Work Program, NC app

**Various channels for stakeholder contributions at all stages of product development**

A 'simplified consultation response procedure'

Standardized consultation format with structured survey questions

Co-creation with stakeholders – peer review process

**Early engagement opportunities for stakeholder input**

Stakeholder workshops/webinars at the different stages of product development

Best use of ENTSO-E advisory stakeholder groups (iAC, ESCs, etc.)

**Quality of consultations & consistency across deliverables**

Compliance provisions

Feedback button

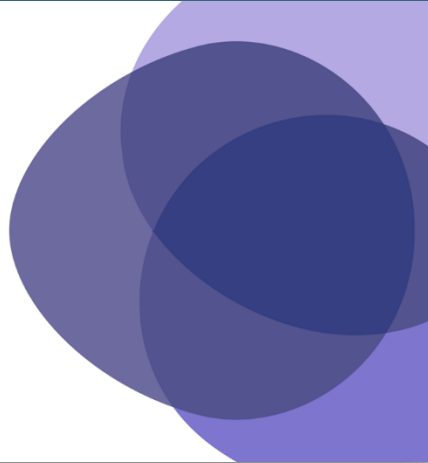

Internal guidelines for best practice
