Acer Decision on the amendments of the determination of Capacity Calculation Regions

05-03-2019

- TSOs initial proposal:
 - Cobra cable (NL-DK1) assigned to the Hansa CCR
- Concerns of high interaction with Core CCR bidding zone borders (unscheduled allocated flows)
 - Possible conflicts with Regulation (EC) 714/2009 and CACM objectives
- Public consultation results:
 - Preferences to include NL-DK1 and DK1-DE/LU in Core CCR
 - Concerns of interfering with ongoing implementation projects

- Amendments resulting from the Italian bidding zone review is included
 - Public consultation showed support of the applied process
- To avoid interference with ongoing CCR implementation processes:
 - NL-DK1 in Hansa CCR for now
- Assessment for the most efficient assignment of this border
 - Qualitative assessment of the available options and their possible implementation
 - Default: DK1-NL and DK1-DE/LU in Core CCR
 - 12 months after Decision (not fixed yet)

Next steps:

- BoR vote on 20.03.2019
- Decision deadline: 02.04.2019

The image features a European Union flag, characterized by its light blue field and twelve golden-yellow stars arranged in a circle. The flag is depicted as if it is waving, with soft folds and highlights that give it a three-dimensional appearance. The background behind the flag is a pale, clear blue. In the center of the flag, the words "THANK YOU!" are written in a bold, dark blue, sans-serif font. The text is centered both horizontally and vertically within the flag's field.

THANK YOU!
