**MESC MEETING**

## ACHIEVEMENTS

### **Much has been achieved in the delivery of the MCO function established by CACM in the last 3 months**

- **Agreement and signature of all pending operation and co-operation contracts: ANCA and ANDOA among all NEMOs (governed by the MCO Plan) and DAOA among all NEMOs and all TSOs.**
- **Establishment of the corresponding committees and WGs.**
- **Implementation of Euphemia 10.3 supporting MNA, go-live of CWE MNA expected on 2nd July.**
- **NEMOs supporting through proposals the Commission debate on the MCO Governance.**

Welcome to the website of all Nominated  
Electricity Market Operators (NEMOs)

**Delivering day-ahead and intraday electricity markets for all Europeans**

Pursuant to European regulation, all NEMOs jointly perform the function to match orders from the day-ahead and intraday markets for different bidding zones and simultaneously allocate the available cross-zonal capacities.

# PUBLIC CONSULTATION

Open: 3rd June 2019  
Closed: 2nd July 2019

2019

03/06/2019

## Algorithm Methodology review

Public consultation pursuant to Art. 12 of Commission Regulation (EU) 1222/2015 (hereinafter CACM Regulation) on Algorithm Methodology review, including algorithm change control and algorithm monitoring, plus SIDC requirements annex amendment for supporting ID auctions, plus SIDC product methodology.

- Algorithm change control and algorithm monitoring
- SIDC requirements
- ID auctions
- SIDC product methodology

## FURTHER INTEGRATION

### **SDAC: Full integration of 4MMC and MRC areas**

**Q1/Q2 2020** Initial integration of both areas through NTC-based coupling

**Q4 2020** Future implementation of CORE flow-based market coupling

### **SIDC: 2<sup>nd</sup> Go-live wave**

**+7 countries in the Single Intraday Coupling**

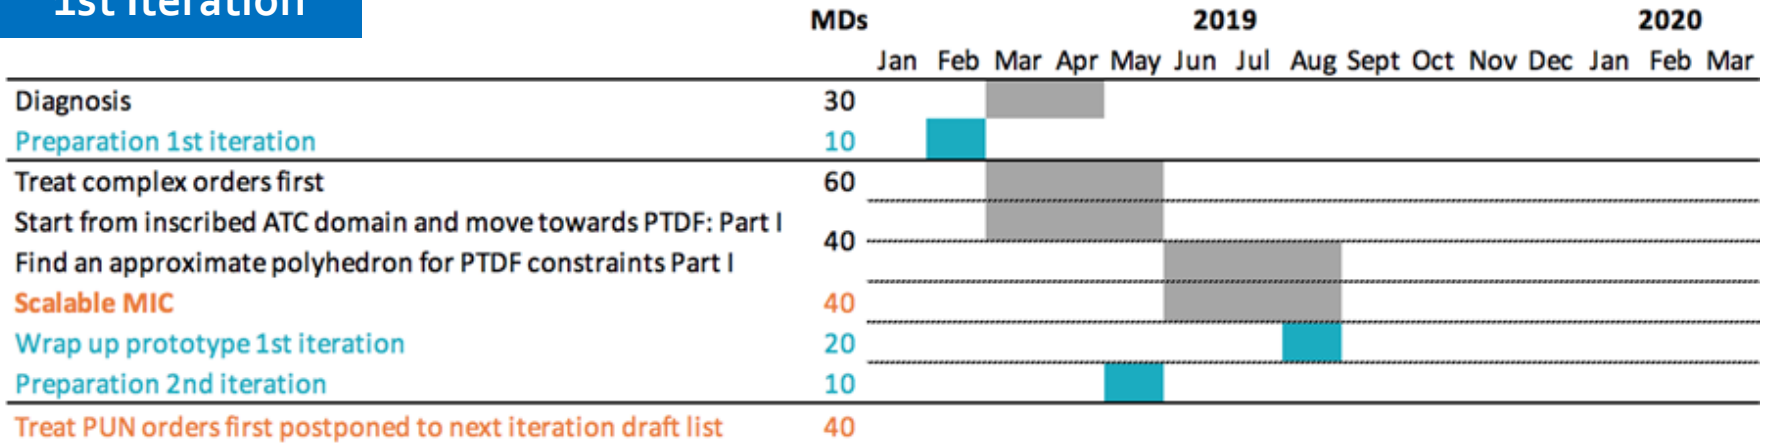

**Enhanced NEMOs-TSOs cooperation → joint governance structure and principles**

**EUPHEMIA upgrade: extension of calculation time; R&D programme; algorithm performance**

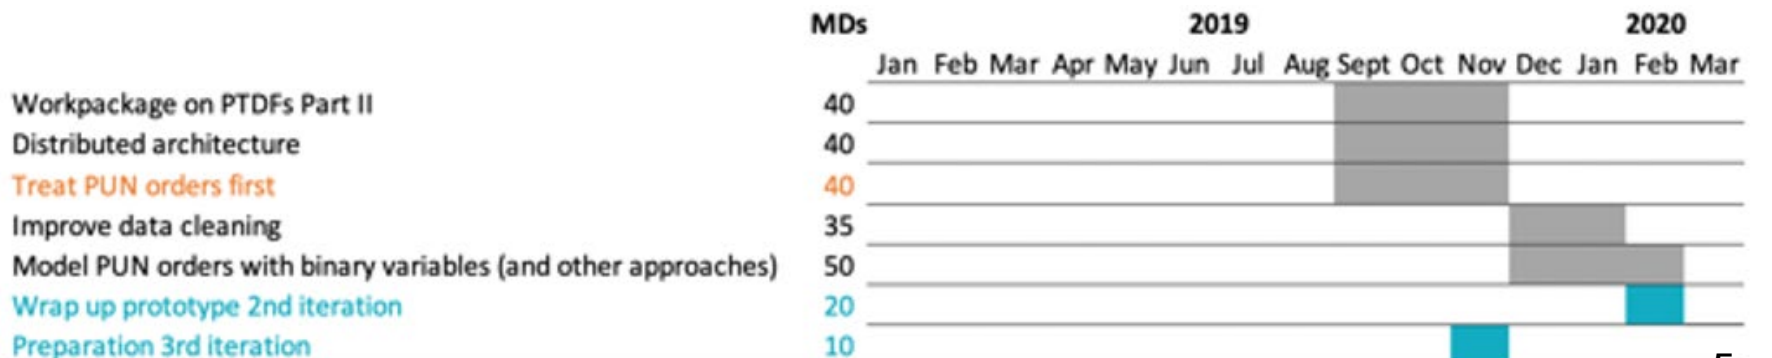

# FURTHER INTEGRATION

## R&D SDAC:

### 1st Iteration

### 2nd Iteration
