

Follow up ENTSO-E's actions

ENTSO-E

System Operation European Stakeholder Committee
12 June 2018

Actions and status

ACTION	ANSWER	STATUS
1. ENTSO-E will inform the SO ESC when the minutes of the NC High-level Implementation Group meeting are published on the website.	SO ESC will be notified when minutes are published	Closed
2. ENTSO-E will look into how national implementation is followed upon in the framework of the CNCs and update the SO ESC at the next meeting on that.	Analysis ongoing	Open
3. ENTSO-E will consider the stakeholder request for providing a justification and cost-benefit analysis on the options preferred and can provide additional specific analysis where deemed necessary and on an ad-hoc basis.	ENTSO-E will consider the request based on topics identified and can provide additional input and specific analysis where deemed necessary on an ad-hoc basis, as otherwise this might slow things down if it has to be done for every single proposal.	Closed

Actions and status

ACTION	ANSWER	STATUS
4. NRAs will update stakeholders on the process of the approval for KORRR and provide an update at the SO ESC in June.	Update will be given by ACER under SO ESC topic 2	Closed
5. ER LFDD and range of demand for disconnection: Regarding the question on technical differences on achieving parameters in ER (LFDD), ENTSO-E should provide an answer (in relation to the choices across countries and what happens if anything occurs and the provision on disconnection is not respected).	Analysis ongoing	Open
6. SOGL: communication line requirements for justification: ENTSO-E will look at the legal concern raised by the DSOs and will follow-up on that.	Analysis ongoing	Open

Actions and status

ACTION	ANSWER	STATUS
7. ENTSO-E and EC will contribute to answer the questions raised by VGB regarding interpretation of certain articles in the SO codes and Connection NCs.	The answers will be prepared for September SO ESC	Open
