

Follow-up actions from joint GC- SO ESC session

ENTSO-E

Joint GC – SO session Stakeholder Committee Meeting

04 June 2019, Ljubljana

Joint GC - SO ESC Actions from December 2018 1/2

Action	Answer	Status
<p>All stakeholders who wish to provide preliminary feedback for the update of the Consultation policy document are invited to submit suggestions through the ENTSO-E annual stakeholder survey in January 2019, or to send directly their proposals to ENTSO-E.</p>		closed
<p>ENTSO-E will look into the possibility to link the different languages of the NCs/GLs in the app as well into further possibilities for enhancing the functionalities of the app to reflect the proposals received where feasible.</p>		ongoing
<p>The topic of the update on the defense and restoration plans by ENTSO-E will be considered for the joint SO-GC ESC session in March. March ESC, that can be a joint topic for discussion.</p>		ongoing
<p>ENTSO-E will take the suggestion to collect historical data of inertia where possible already from 2018 and will report in the December ESC the feasibility.</p>	<p>Issue discussed and answered in the last DSA stakeholder workshop (slide 17) https://www.entsoe.eu/events/2019/05/15/system-operation-guideline-3rd-stakeholder-workshop-on-dynamic-stability-assessment-and-studies-on-minimum-required-inertia/</p>	closed

Joint GC - SO ESC Actions from December 2018 2/2

Action	Answer	Status
ENTSO-E will look into gathering the information regarding countermeasures considered by TSOs in the system defence plans.	The exercise will start in the new year following submission of the defence plans once it is clear what is required	ongoing
