

ENTSO-E summary about the HAR development and its public consultation

HAR Public Workshop

18 March 2015

Brussels

Reliable Sustainable Connected

Background

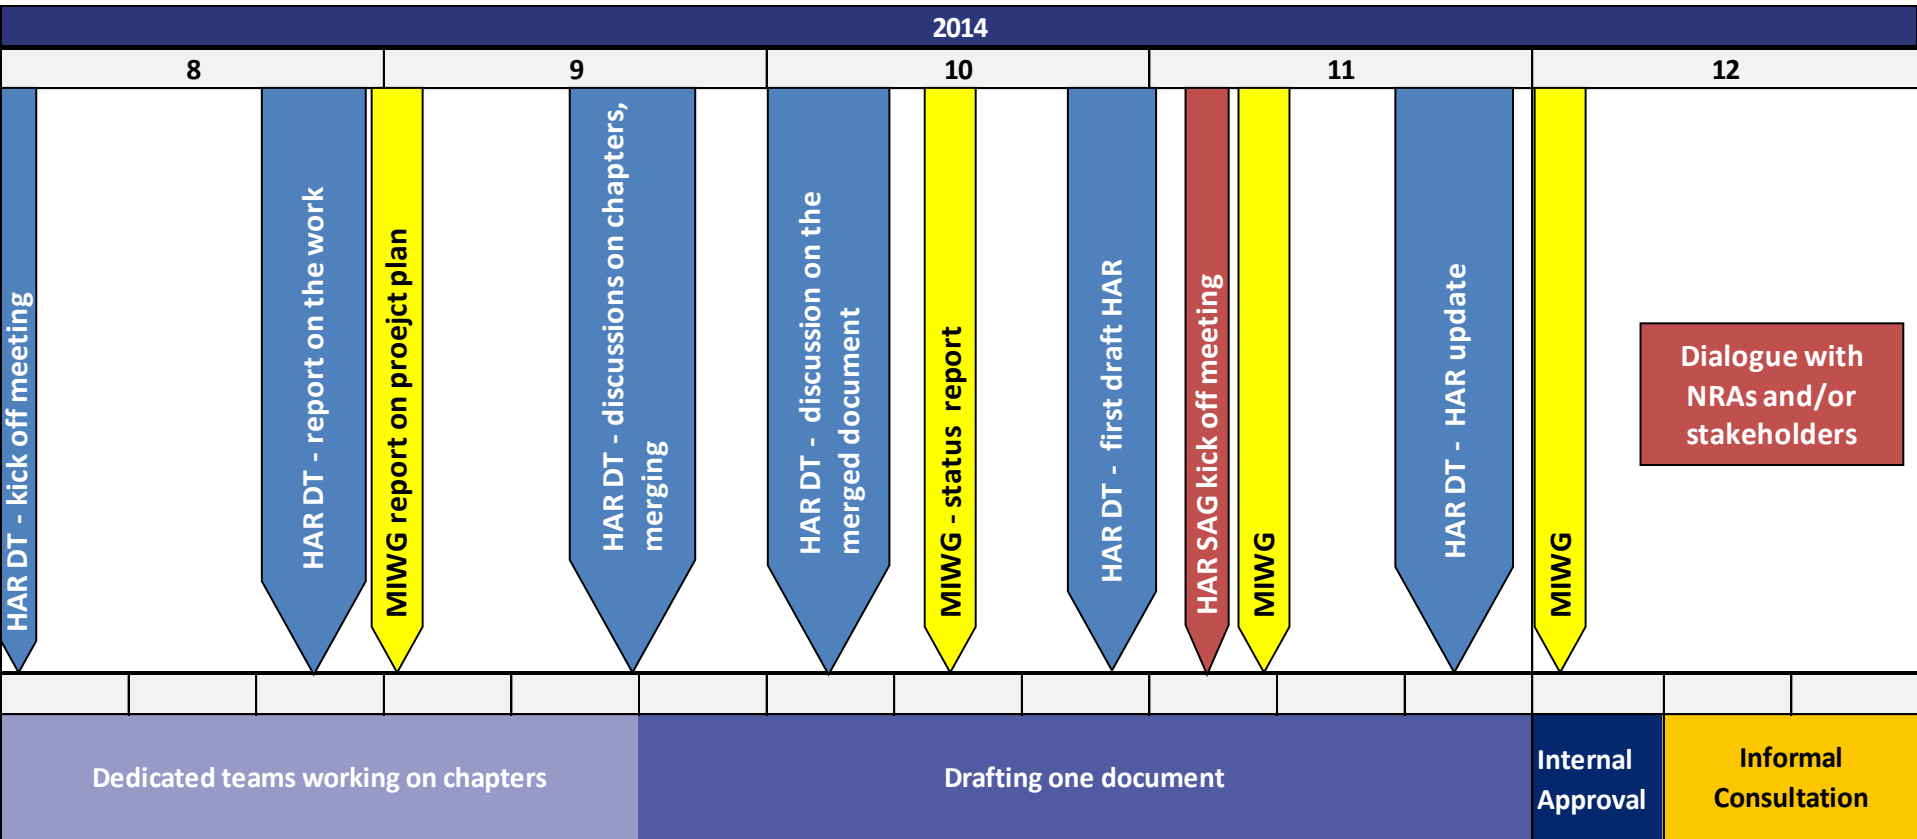

NC FCA submitted in April 2014 by ENTSO-E

Preparatory work within ENTSO-E between mid 2013 – mid 2014: recommendations made on 7 key topics of the HAR which were presented to Florence Forum and to AESAG

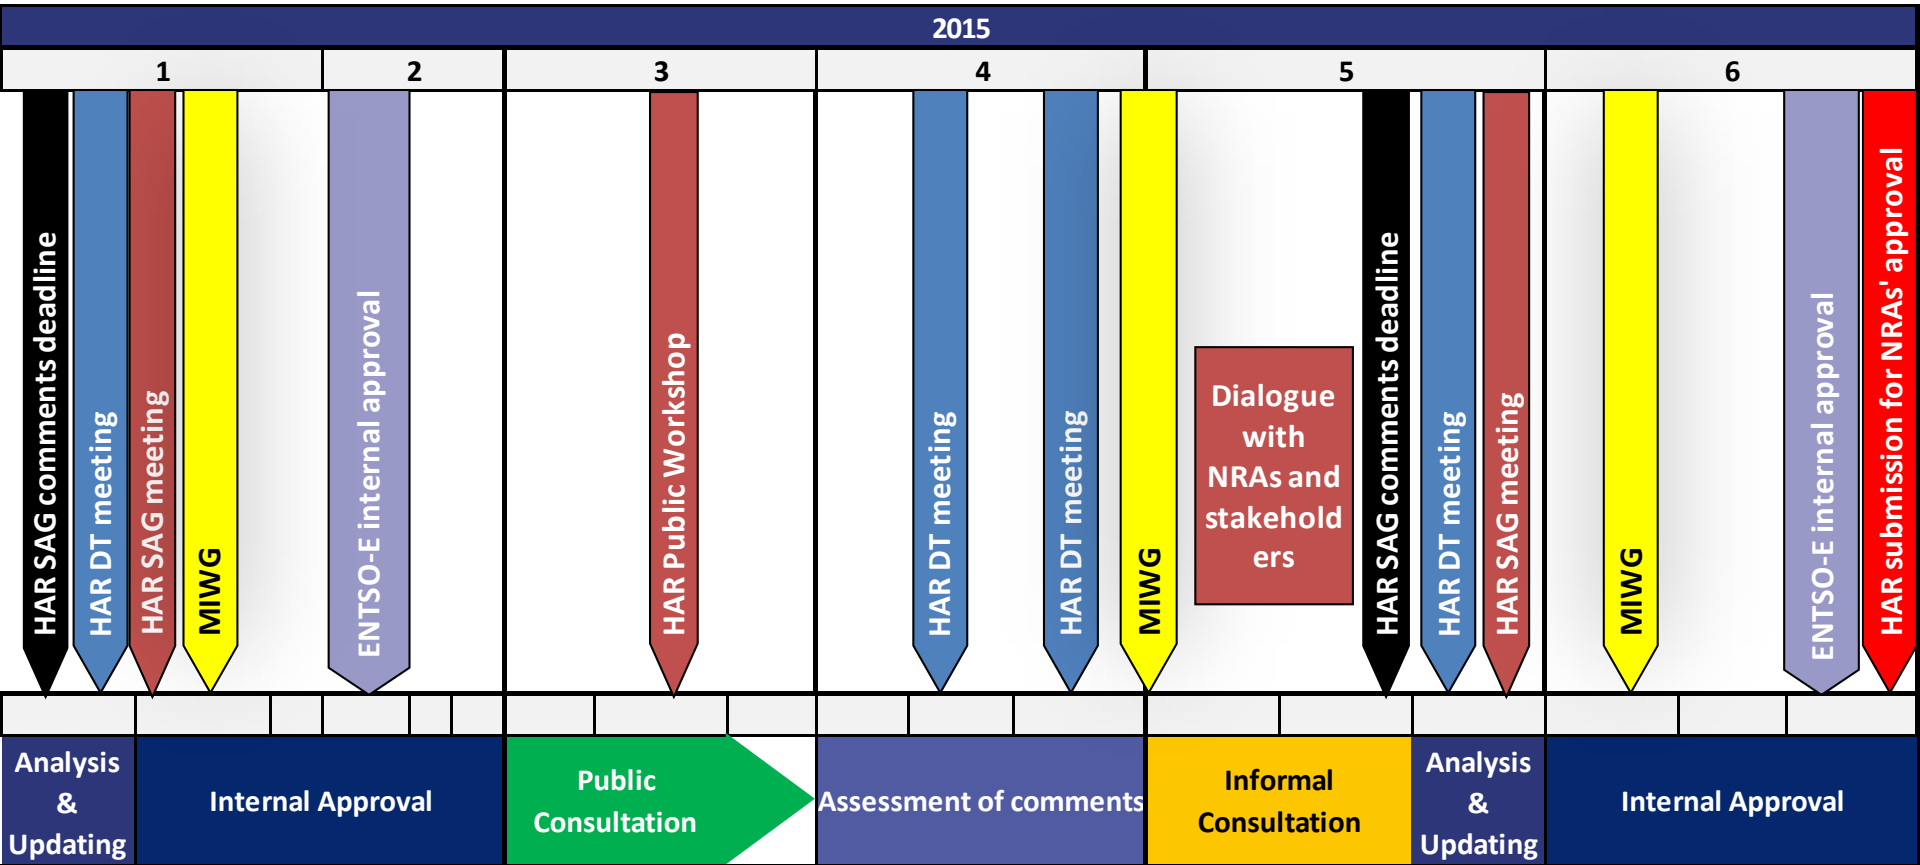

Q3 2014: ENTSO-E starts **early** implementation of NC FCA on HAR in order to:

- promote the development of liquid and competitive forward markets in a coordinated manner across Europe
- provide the ability to hedge risk associated with cross-border electricity trading

HAR project plan I,

HAR project plan II,

Critical issues

Resource intensive process: need of all key TSOs experts with relevant time commitment to carry out high ENTSO-E workload (on top of national/regional tasks)

High level of coordination needed: among TSOs, NRAs (for approvals) and other stakeholders

Respect of time-plan and deadlines depends **on smooth processes and efficient contribution** of all involved parties, including ACER and NRAs

No off-the-shelf solutions: the most common principles/rules are not always the most suitable for all European borders and cables. Harmonisation involves Legal and financial issues

HAR SAG - Stakeholder Advisory Group

to create awareness of the HAR amongst stakeholders

to provide information to stakeholders and receive constructive feedback related to HAR matters

to gather useful input for the implementation of other early implementation projects of NC FCA

EFET

ECOS

ESTELA

EURELECTRIC

Statkraft

IFIEC

HAR public consultation I,

2 March – 30
March (4 weeks
according to NC
FCA)

Via ENTSO-E
new
consultation tool

Single point for
consultation of
31 borders
within the EU

HAR main body
developed by
ENTSO-E while
the annexes by
relevant TSOs

Open questions also published by regions and by borders

Comments, questions to be assessed by relevant parties
ENTSO-E or relevant TSOs

Result to be published in due time

HAR SAG will continue to meet

Thank you for your attention
