

Europe's power system's mid-term review PowerFacts July update

23th July 2019

10:30-11:30

Webinar

ENTSO-E is publishing a light update of its statistical publication 'ENTSO-E PowerFacts Europe' by end of July. This webinar will present you the updates but above all give insights into what the next edition will include. The more substantial update will indeed be done in November and be released for the ENTSO-E 10 year conference. Join us on 23 July to follow the development of one of ENTSO-E's flagship publications on Europe's energy transition.

Why is this an important publication for ENTSO-E? What is the July edition updating? How will PowerFacts evolve in the future? Join us!
