# Flexibility Framework & Mapping

05 December 2019

10:30-11:50

Webinar

Tools of flexibility in the power grid are key to energy transition. These have become invaluable with the spread of variable energy sources like wind and solar. Flexibility solutions can be technical or market based – in the Flexibility Mapping ENTSO-E monitored 100+ use cases and demos on these tools.

To see our key findings and have expert insight on flexibility projects join our next webinar!

## Programme

1. Introduction	10:30	<b>Norela Constantinescu</b> , ENTSO-E Research & Innovation Manager
2. Flexibility needs of Power System	10:35	<b>Laurent Schmitt</b> , ENTSO-E Secretary General
3. Introduction to the Flexibility Framework	10:45	<b>Håkon Borgen</b> , ENTSO-E Research, Development and Innovation Committee Chair (Statnett)
4. Flexibility Framework & Mapping	10:55	<b>Matthias Hofmann</b> , ENTSO-E RDI Committee convener of Working Group3 (Statnett)
5. TSO-DSO /flexibility products and services	11.15	<b>Kalle Kukk</b> , Strategy Manager at Elering <b>Helena Gerard</b> , Senior researcher at EnergyVille/Vito
6. Questions and comments, look ahead	11:35	<b>Norela Constantinescu</b> , ENTSO-E Research & Innovation Manager
