

EURELECTRIC's discussion input on the mFRR/RR report

**Balancing Stakeholder Group meeting
The Hague, 13 April 2016**

General comments

- **Open/ positive report**
- **Reduced number of products is welcome**
- **Relation between TSOs and BSPs is introduced up to settlement: it is positive but it remains unclear for some points**

Questions

- **XB pricing: how does it work? Impact of congestions on arbitrage potential?**
- **Handling of ramps, in particular option 3**
- **Use of products linked to specific CoBAs?**
- **Overview of remaining specific products per control area needed**
